Google has released Chrome version 86.0.4240.183 for Windows, Mac, and Linux addressing multiple vulnerabilities, including vulnerability CVE-2020-16009. **Exploit code for this vulnerability exists in the wild.**

Please take a moment to manually update Chrome by clicking on the three dots on the top right-hand corner of the browser:

Then click on "help" – "about Google Chrome." This will start the manual update.

Thanks,

Pavel P.

Good Morning Everyone,

Just an update on the city campaign this year:

Overall the city is at just under \$ 9000 towards our \$ 11,000 goal- so still a ways to go.

So far, about 25% of all city employees are participating in some way. In the last few years overall participation has ranged from 38% to 58%.

So far: Narcotics, Support Services, Playgrounds/ Programs, Fire C-Shift and Investigations all have greater than 50% participation amongst their folks- so that's fabulous!!

Complete: by department:

City Center staff - 20%

Fire Department - 55%

Police Department - 87%

PW - 95%

Parks and Rec - 24%

Thanks to all who are helping out this year and to everyone for their continuing support!!! We have a few more weeks to go-

Kat Morilak

Reminder: All radio traffic is recorded. Not only recorded but subject to QA Review. Some are automatically subject to in-house review by the Emergency Communications District. Even though this protocol is for Dispatchers, our transmissions are part of the process and in the reviews.

See below the paragraphs from the Hamblen County Emergency Communications District. OPS-05, page 2.

D. All recorded communications within the District may be subject to quality assurance reviews. This includes, but is not limited to, the following:

1. telephone conversations,
2. **text-to-911 sessions,**
3. radio dispatch (includes side channel traffic),
4. e-mail correspondence, and
5. any other recorded communication.

E. While all recorded communications occurring with the District may be subject to QA reviews, the reviews will generally focus on calls for service that represent time life critical events. These events include, but are not limited to, the following:

1. Airway Obstruction
 2. Cardiac Arrest / Heart Attack / Chest Pain
 3. Gunshot Wound
 4. OB CFS (Labor / Delivered / Hemorrhage)
 5. Stabbing
 6. Stroke
 7. Structure Fire (Confirmed)
 8. Unconscious / Semi-Conscious

JOB OPENING ANNOUNCEMENT

TO: Department Heads
FROM: Human Resources
DATE: October 28, 2020
RE: Position Vacancy: Utility Heavy Equipment Operator- Storm Water

Please post this memo for the above referenced position.

The City of Morristown is now accepting applications from current city employees and the public for the position of Utility Heavy Equipment Operator/Storm Water-Public Works.

Any applicant that would like to be considered for this position is to complete an application and turn it into the Human Resources office. **Applications are accepted until position is filled.**

This position is classified at a **level 8 (\$15.83)** on the City's salary schedule. It is located at Public Works.

Good Afternoon All,

Annual Health Assessments (formally known as HRA's) for the 2019/2020 period have been waived. Anyone who did not complete their AHA for the 2019/2020 period will not receive a premium increase due to the pandemic and limited availability of AHA services at the Clinic.

Effective 6/1/20, we have begun our new AHA period. Employees have from 6/1/20-5/31/21 to complete their AHA.

The Clinic is now open to do blood draws and AHA's one patient at a time. All patients are still required to wear a mask.

Please share with your Departments and feel free to reach out to me if you have any questions.

Thank You,

Nicole Sizemore

City Council Meeting
at City Center

City Tax Notice

In the past, City Tax notices have been mailed out in the month of August. This year, Council voted to push the date back a couple of months, bringing the City taxes into the same timing as County Tax notices. City residents can expect to receive their tax notices in early October. If paid during the month of October, there is a 2% discount. Taxes will be due by the end of February.

City taxes can be paid in-person, online, by mail, or over the phone by calling (423)585-4607.

Scarecrows at the Park

Scarecrows at the Park, an autumn celebration presented by Morristown Parks and Recreation Department, will be held October 2, 2020 at Fred Miller Park. Fall into family fun while decorating a scarecrow. The Scarecrows will be displayed on the south side of the park for the public to enjoy. Scarecrows are to be decorated and judged on October 2nd and will stay in the park until November 2nd. Prizes will be awarded to 1st and 2nd place in each category.

If you or your organization would like to participate by decorating a display this event, please contact the Morristown Parks & Recreation Department at (423) 586-0260.

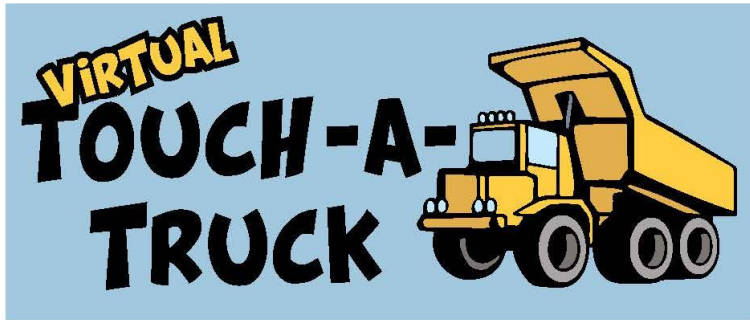

James Seal Retirement

James Seal has retired from the Public Works Department after serving the City for over 14 years. James joined Public Works on October 24, 2005. For the past several years James has been the crew leader for the asphalt crew.

A retirement celebration was held July 30th in James' honor. Paul Brown, the Director of Public Works, stated James was an outstanding employee and his shoes will be hard to fill. Retirement plans for James include deer and turkey hunting and spending more time with his wife Gail and his grandson Connor.

Parks & Rec Goes Virtual

In 2020, so few things have looked or felt “normal”. Businesses, schools, events, and just about everything has had to change and adapt to the current state of affairs. But despite the virus, many things have been able to continue, even if it means looking a little different. Morristown Parks and Recreation is trying to do that very thing. While many of the park events had to be cancelled, staff is working to continue the annual “Touch-a-Truck” event virtually.

City staff and community members have created videos showing off the heavy equipment and vehicles utilized by Public Works, the Fire Department, Police Department, construction trade, and more. Obviously, it won’t have the same effect for children of being able to actually touch and climb aboard a vehicle, but hopefully children (and adults) will be able to learn more about the heavy equipment and vehicles that make our community run.

Beginning September 22nd, these videos will be available on the City’s Facebook page and website.

Message from the Mayor

THE JEWEL OF EAST TENNESSEE

That's what Sports Facilities Management, Inc.'s Greg Wisecarver says he expects Morristown's new Community Center to be known as. The designated GM for the facility, which will see construction begin this Fall, presented the August 21 City Council planning retreat with design plans outlining what citizens can expect.

“Cradle to grave” is the age span of activities we intend to include. Swimming, fitness, basketball, volleyball, track, climbing, and E-sports competition rooms, and more will be among the choices.

The Community Center will be adjacent the Merchants Greene shopping complex which is fed into from Highways 160 and 11E, West A. J. Highway, and Exit 4 of Interstate 81. The CC will also have meeting and classroom options.

Sports Facilities Management was chosen to be the operations company by a panel of city staff and Councilmember Kay Senter. SFM manages multiple sports complexes throughout the USA. It intends to blend ongoing regional activities with local Parks and Recreation athletic programs. Opening is projected for April, 2022.

Mayor Gary Chesney
